The development guide includes sections which apply to all development (Introduction and Site Design) and other sections which apply to specific types of development (Mixed Use and Medium Density Housing).

### CONTENTS

#### VISION
- 2 The vision for Tauranga

#### PRINCIPLES
- 3 Principles of good urban design

#### PROCESS
- 4 The design process
- 5 Working with Tauranga City Council

#### CITY CONTEXT
- 2 Tauranga's unique identity
- 2 Landscape setting
- 2 Urban environment
- 2 Guiding frameworks

#### NEIGHBOURHOOD CONTEXT
- 3 Topography and ecology
- 4 Location
- 4 Views and outlook
- 5 Movement networks
- 6 Infrastructure and services networks
- 7 Character and identity

#### SITE ANALYSIS
- 8 Microclimate, sun, wind, rain
- 9 Public realm design
- 9 Safety, security and privacy
- 10 Lot formation
- 10 Hard and soft landscaping
- 11 Low impact building
- 11 Site infrastructure and services

#### SITE DESIGN EXAMPLE
- 12 Site and context analysis checklist
- 13 Site and context analysis example
- 14 Worked site design example

#### MIXED USE

#### CHARACTERISTICS
- 2 Where mixed use works
- 2 What mixed use looks like

#### DESIGN CONSIDERATIONS
- 3 Bulk, form and scale
- 3 Facades
- 4 Street interface and entrances
- 5 Corners and landmark sites
- 6 Transport and parking
- 6 Open space and planting
- 7 Flexibility of use

#### INTERNAL CONSIDERATIONS
- 8 Signage and lighting
- 8 Service areas
- 9 Residential requirements

#### BUILDING PERFORMANCE
- 10 Low impact design
- 10 Acoustic insulation and noise

#### MEDIUM DENSITY HOUSING

#### CHARACTERISTICS
- 2 Where medium density works
- 2 What medium density looks like

#### DESIGN CONSIDERATIONS
- 4 Open space and landscaping
- 4 Street frontage
- 5 Security and privacy
- 6 Mass, form, repetition, scale
- 7 Outdoor living space and outlook
- 8 Transport and parking
- 9 Low impact design
- 10 Choice and flexibility

#### BUILDING PERFORMANCE
- 11 Acoustic separation
- 11 Services
- 12 Energy efficiency
- 12 Durability and maintenance
